## Staff working Across Menno Campus & Expansion to include Fraser East Cluster

The Ministry of Health has announced that staff can work across different long-term care and assisted living sites within an expanded cluster.

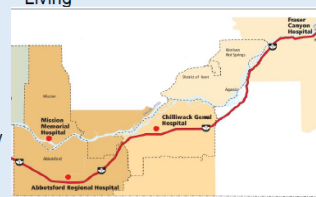

Menno Home, Hospital and Assisted Living are included in the **Fraser East Cluster**:

- Can only be hired as a casual at the additional site ;
- You must let your manager and staffing know if you are activating casual employment at another site ;
- This is a temporary measure. Employers could propose restrictions or pre-cautions at any time as directed by the Ministry of Health in the case of an outbreak or other unforeseen circumstances.
- We encourage all staff to get the Booster vaccination to reduce the risk of spread between sites.

This does not alter the Single Site Transition Framework agreement and employees with combined FTEs will continue to work the additional FTE.
