## Cultural Diversity Training

### SURGE LEARNING

As we work with a diverse aging population, we seek understanding and respect to enable us all to work effectively with residents, families and/or caregivers who have diverse cultural backgrounds, religious beliefs, and care needs.

Surge Learning provides education in the areas of gender diversity and cultural diversity.

You will find this education on Surge Learning under :

- Cultural Compétence and Indigenous Cultural Safety (5 courses)
- LGBTQ (2 courses)

All team members will be assigned one course under each topic. Feel free to take more courses if interested.

We encourage all team members to complete these courses and become better informed on how to work with our diverse resident population.
